Advocacy in partnership with co-conspirators to advance reproductive rights and justice and secure a future for all people who need abortions.

Nourishing future abortion providers with the tools they need to learn and grow.

TEACH helps Family Physicians gain the hands-on experience they need to become skilled & compassionate abortion providers.

Planting the seeds for the future generation of reproductive health champions.

Cultivating a strong organization and community that supports reproductive freedom for all.
The generosity and support of our community has made our aspirations a reality. Thank you to our incredibly resilient, dynamic and compassionate community for your continued support, nourishment and cultivation of TEACH.

A special thank you to our incredible training faculty, volunteers, training partners, individual donors and foundations for their support of TEACH in 2019-2020. Your dedication, personal investment, and commitment to our collective mission are what make TEACH thrive.

Advisory Board: Libby Benedict, MPA – Board Chair, Emily Guh, MD, Debbie Bamberger DNP, RN, Rachna Vanjani, MD, Suzan Goodman, MD, MPH, Susan George, MD, Shannon Olivieri Hovis, MPP

Volunteers: Jenny Tsang, MD & Copperwoman Saso

Residency Partners: Santa Rosa Family Medicine Residency Program, Natividad Family Medicine Residency Program, Contra Costa Family Medicine Residency Program, UCSF Family and Community Medicine Residency Program

Clinical Training Partners: Planned Parenthood Northern California, Planned Parenthood Mar Monte and Women’s Health Specialists

We are eternally grateful for the support of our more than 250 donors big and small who sustain and lift up our work. Thank you to everyone who gave to TEACH this academic year.

Hands on training

- 2,629 abortions provided by our residents at local clinics
- 65 residents trained in comprehensive abortion care, including how to counsel pregnant people and provide both medication and surgical abortion with skill and compassion
- 45 2nd year residents trained in comprehensive reproductive healthcare
- 20 advanced CREATE residents trained and mentored in abortion care, leadership, and advocacy
- 287+ training days at local clinics provided to 2ND and 3RD year residents

Cultivating our community

Advocacy to secure the future

- 4 resolutions to the California Academy of Family Physicians authored and presented to make abortion more accessible for all, improve reproductive health of incarcerated people and end policy brutality and invest in public health
- Justice and Equity in Maternity Care Act signed into law with the support of TEACH ED’s participation in the WFC Women’s Policy Institute Reproductive Justice Team
- 10 letters of support for reproductive health and justice legislation sent to CA policy makers
- 4 sexual and reproductive health federal and state policy initiatives supported
- 1 Reproductive Freedom Week collaboration with our allies at CCRF
- 3 podcast episodes produced that highlight the lived experience of people of color and normalize reproductive health and abortion access here

Nourishing future providers

- 6th edition of the TEACH Early Abortion Training Curriculum newly revised and updated access here
- 20,000 annual visits to our Early Abortion Training Curriculum website
- 195 course completions of online course that trains primary care providers in medication abortion

Planting seeds far and wide

TEACH grads spread out across the country, often becoming providers in underserved areas.

- 9 residents completed 10 external rotations in rural CA, Phoenix, AZ and Baltimore, MD
- 2 family medicine physicians supported in their journey to become reproductive health champions as TEACH Leadership Fellows in 2020
